SUMMARY

Java Full Stack Developer skilled in building Android and backend systems using Core Java, Spring Boot, and REST APIs. Strong in Data Structures, Algorithms, debugging, and software testing with growing interest in AI-assisted code generation, code verification, and software reliability.

EDUCATION

B.E. Information Technology, I²IT Pune (Pursuing) CGPA: 8.59	2025–2028
Government Polytechnic Ambad Marks: 91.54%	2022–2025
SSC (10th), Z P School Galleborgav Marks: 94%	2021–2022

SKILLS

Languages	Java, JavaScript, HTML, CSS
Backend	Spring Boot, MySQL, Firebase, REST APIs
Tools	Git, GitHub, Postman, Android Studio, JUnit (Basic), Maven
Core	Data Structures & Algorithms, OOP, Deployment & Debugging

EXPERIENCE

Android Developer Intern <i>Mountreach Solution Pvt Ltd</i>	Jul 2024 – Nov 2024
- Built full-stack Android app with API and database integration, verified correctness with systematic debugging. - Designed and tested REST APIs using Postman; improved system reliability and performance.	
Java Developer Intern – Best Performer <i>Elevate Labs</i>	
- Completed Java internship focused on application logic, problem-solving, and code verification. - Awarded Best Performer; strengthened OOP, debugging, optimization, and software testing skills.	

PROJECTS

AgriMart – Smart Farming Android App	GitHub
- Developed a full-stack Android application in Java targeting farmers, featuring real-time crop pricing, product ordering, and operations management with Firebase backend integration. - Implemented multi-user support with role-based flows, REST API consumption, and a reliability-focused architecture across 70+ commits demonstrating iterative, production-quality development.	
Smart Task Scheduler (Priority Queue)	GitHub
- Built a Java Swing desktop task manager using <code>PriorityQueue</code> for automatic urgency-based ordering, with full CRUD, smart filtering (overdue, today, upcoming), and JSON-based persistent storage. - Applied clean MVC architecture (model/ui/util packages), Maven build tooling, and logical validation to ensure correct priority execution order and scheduling reliability.	

ACHIEVEMENTS

- Winner-INNOVYUH 2.0 National Level Hackathon (2026)
- Google Student Ambassador (2026)
- Campus Mantri – GeeksforGeeks

CERTIFICATIONS

Oracle Certified Foundations Associate (Java)	
HackerRank Java (Basic) Skill Certification	Certificate
GeeksforGeeks DSA Training Program (Grade A)	Certificate
